CARDIOsport®

Cardiosport heart rate monitors offer a personal solution to make your fitness training more rewarding. A Cardiosport heart rate monitor helps you to train and exercise at the right intensity, not too heavy and not too light but at the correct intensity based on your goals - whether they be general fitness, high performance or weight management.

Work smarter not just harder

All Cardiosport monitors come with the following features:

- Water resistant to 30 metres
- Heart Rate updated every two seconds
- ECG accurate
- User changeable transmitter battery
- World leaders in heart rate monitoring technology. Cardiosport has developed a safe 122kHz low frequency digital transmission with improved signal interference resistance and coding to allow exercise in close proximity to other monitors

Accessories

- Cardiosport's NEW "Softflex" G2 transmitter belt with user-changeable battery has been improved to give not only optimum performance but also much improved comfort

Product codes:

ZT18	**Stretch fabric digital transmitter**
ZTG2	**Digital transmitter and elastic strap**
ZTG2CS	**Elastic strap for transmitter**
